# Cory family on the verge of losing Luisita

**By Marissa S. Brown**

THE FAMILY OF FORMER PRESIDENT Cory Aquino is reportedly on the verge of losing their daughter, Luisita, to a heart condition.

Luisita, 21, has been diagnosed with a rare heart condition called Long QT syndrome, which can cause sudden cardiac death.

The family is reportedly considering whether to have Luisita undergo surgery to correct the condition.

Luisita's condition is reportedly a result of a genetic mutation that affects the heart's electrical system.

# Sandiganbayan ruling clears way

THE SANDIGANBAYAN ON Wednesday said it had enough evidence for an all-grown world case against former First Lady Imelda Marcos following a \$200-million lawsuit filed by the government.

But the sandigan court denied the claim of children of Imelda and late dictator Ferdinand Marcos, as well as late son-in-law Gregorio Arana, listing a decree on his property. Arana is married to Imelda Marcos, the youngest of the Marcos children.

Sandiganbayan Associate Justice Gregory Ong said Mrs. Marcos had acknowledged in 1973 that her family held properties and bank accounts acquired by the government of having been acquired illegally.

## Prima fade case

"We find that the evidence presented by the plaintiff (Marcos) is prima facie case against Imelda Marcos," Ong said in a 10-page decision, adding the land and property were "prima facie" in the family's total assets.

The ruling clears the way for a civil action, but no damages have been set.

Mrs. Marcos, 74, denies any wrongdoing during her husband's 21-year rule, which was ended by a "people power" uprising in 1986. The government accuses the Marcoses of spending up to \$10 billion in cash, property, artworks and jewelry.

Mrs. Marcos, famous for her collection of 1,200 pairs of shoes and worn frequently on model covers around Manila, faces charges of civil and criminal fraud.

The government hopes to receive millions of dollars worth of jewelry confiscated in Manila and elsewhere after the Marcoses fled into exile in Hawaii. The previous attempts have been blocked by lawyers filed by Mrs. Marcos.

Chief magistrate John Doe said on May 22, 1994, Mrs. Marcos agreed with the law of the property in the government's complaint has obtained they were lawfully acquired.

But the court said that, based on proven the payments of the Marcoses from 1973 to 1986, they claimed a taxable income of P13.81 million.

IMELDA

The lawsuit was filed by the Philippine government in July 1987, shortly after the Marcoses fled to Hawaii. Ferdinand Marcos fled there in 1986 and Imelda Marcos remained in the Philippines in 1986, claiming citizenship for protection in 1992.

The government alleges the Marcos family maintained private property, earned income in salaries and business activities, and used government funds and national money from 1973 to 1986.

It says the assets were obtained in various legal and official bank accounts.

## Insufficient evidence

But the court found insufficient evidence to support the government's allegations against the three Marcos children—Imelda Marcos, an opposing member of Congress, Ferdinand "Bongbong" Marcos Jr., the governor of Ilocos Norte province, and their 16-year-old son.

The government alleges that Mrs. Marcos owns 15 residential properties across the Philippines and 21,700 hectares of land with estimated value of \$15 million.

Government investigators have also said they found assets of millions of dollars belonging to \$100 million and much more in cash and property.

They also have some assets in the United States and London, and nearly 100 properties by various such as Florida, Guyana, Mexico and the Philippines. However,

# Aramco eyes 2nd refinery in RP

RIYADH, SAUDI ARABIA—SAUDI ARAMCO, the biggest oil company in the Middle East with more than 40 years of history, is interested in setting up a \$5 billion oil refinery in Mindanao that could supply the oil requirements of East Asia and the US Pacific Coast, Saudi Arabia's Aramco reported yesterday.

The Saudis made the disclosure in a press statement after a meeting with Saudi Arabian Petroleum Minister Khalid Al-Falih in the capital of Saudi Arabia, Riyadh, yesterday.

Dr. Waseh said Aramco informed him he had already informed Saudi Arabia of the proposed refinery in Mindanao.

The Saudi oil giant would like to set up a refinery in the Philippines, but it would like to have three more refineries in the country, said Dr. Waseh, head of the Philippine-Nippon Oil (PNO) who is currently in Manila on a business visit.

Dr. Waseh said Aramco is already operating a refinery in Japan and a \$200-million investment program has been started to expand its capacity and upgrade its oil-refining production facilities.

# 15 death convicts granted reprieve

EXECUTIVE MAGISTRATE has granted an indefinite reprieve to 15 convicts scheduled for execution in March by the government, said yesterday.

An order was given by the justice minister that the government may what crimes these convicts are guilty of and what they have been convicted of.

The President, a devout Catholic, imposed a moratorium on the death penalty after coming to power in 1993. But after a series of kidnappings and murders in 2003, she lifted it.

## Reprieve grants

No execution, however, have been carried out and the Arroyo has always granted reprieve for those scheduled for execution.

The Philippines lifted a ban on executions in 1999 during the term of deposed President Joseph Estrada as part of the government's anti-corruption drive.

Seven inmates were put to death between 1995 and 2003 before Estrada imposed a moratorium on further executions after pressure from the Catholic church and rights groups.

There are more than 1,000 inmates on death row, 29 of them women. AFP

# Israel restricts movements in West Bank

## WHO sees more bird flu outbreaks in China

Israel's security forces have imposed a new set of restrictions on the movement of people and goods in the West Bank, a move that has drawn criticism from the international community. The restrictions, which are part of a broader effort to maintain security in the region, include increased checkpoints and more stringent checks on vehicles and pedestrians. Critics argue that these measures are overly restrictive and hinder the economic and social development of the West Bank. The Israeli government, however, maintains that the restrictions are necessary to prevent terrorism and ensure the safety of its citizens.

# Ex-PBA vs Tribu in finals

ANTIPOLO CITY—THE EX-PBA STARS OF Rep. Vic Sumulong foiled an all-NBC finals in the Nature's Cup-Rep. Ronnie Puno Cup basketball tournament Tuesday by turning back Spring Cooking Oil, 84-67, in the semifinals at the City Auditorium here.

Henry Fernandez knocked in five of his six triples in the fourth quarter to erase Spring's 11-point (63-52) advantage.

It was a bitter loss for national shooter Nathaniel "Tac" Padilla's Cooking Oil Masters as they led throughout until Fernandez caught fire.

First NBC champion Tribu Sugbu arranged a title showdown with the ex-PBA Stars by subduing Homer Cagers, 88-76.

Christian Nicdao and Doroteo Almacin combined for 31 points to lead the Tribesmen of businessmen Liro Gillamac and Mario King in the tourney co-organized by Antipolo Basketball League and supported by Spring Cooking Oil and Sulpicio Lines.

Tribu and the VS Ex-PBA Stars will dispute the title at 3 p.m. today after Spring and Homer Cagers clash for third spot.

# CA now only bar to Lim deportation

By Leila B. Salaverria

A COURT ORDER IS THE ONLY THING that could keep beleaguered Basketball Association of the Philippines secretary general Graham Lim in the country.

Malacañang earlier dismissed Lim's motion for reconsideration on its decision to uphold his deportation for being an illegal alien.

The Bureau of Immigration is checking if Lim was able to obtain a court injunction against the decision, according to its Commissioner Alipio Fernandez Jr.

Lim would be deported within one week after the BI has made sure that he had failed to get a temporary restraining order from the Court of Appeals, the BI said.

"I issued instructions to check with the CA if Lim has been able to obtain a TRO," said Fernandez. "We will know the results within the week. I just want to make sure that we will not be hampered by technicalities when we enforce the deportation order."

# PLDT drops bid for Bayantel, Dream TV

By Clarissa S. Batino

PHILIPPINE LONG DISTANCE Telephone Co. is walking away from two potentially promising acquisitions—Bayan Telecommunications Inc. and Philippine Multi-Media System Inc., operator of Dream Satellite TV—due to irreconcilable pricing differences.

It appears that 2005 is not a good year for acquisitions for the PLDT group. Its biggest shareholder, First Pacific Co. Ltd., had wanted to buy Del Monte Pacific, but its bid was foiled last week by the Campos-San Miguel Corp. group.

PLDT's discussions with Bayantel and Dream Satellite went on for months during the year before the telecom giant decided to drop its bid.

PLDT president Napoleon Nazareno confirmed that the company had decided not to pursue talks with the Lopez family on the purchase of Bayantel, a niche fixed-line player saddled with debt.

"We had decided to pull out from the talks with Bayantel because of pricing differences," said the PLDT president.

Bayantel's asking price, according to the PLDT chief, was quite a sum considering its financial status.

Sources said that PLDT's board of directors, in a recent meeting, also agreed not to chase after Dream Satellite TV of the telecom giant's former owner, Antonio Cojuangco.

Owning Dream Satellite would have been the key for PLDT to fi-

nally pursue its tie-up with US direct-to-home provider Echostar. Now, PLDT has to negotiate with other groups owning a franchise to operate a direct-to-home satellite.

Nazareno declined to comment on the pending discussions over Dream Satellite. What people could be talking about, he said, could just be "posturings" among those involved.

A source said that Cojuangco was upset with PLDT's decision after having negotiated with officials of his former company for months.

In the third week of September, the two parties came close to signing a memorandum of agreement that would have paved the way for the transfer of ownership.

But Cojuangco's group, according to the source, changed its mind in accepting PLDT's offer of \$22 million for the ownership of Dream Satellite TV and, soon after, opened a new round of negotiations.

As the weeks passed, the possibility of PLDT and Dream Satellite coming to terms on the valuation dimmed. Last Friday, Cojuangco's Dream Satellite and ABS-CBN Broadcasting Corp. signed an exclusive deal on the pay-television business.

The deal will give Dream Satellite TV access to ABS-CBN programs while SkyCable will use Cojuangco's set-up boxes and other satellite technology to make the Lopez-controlled cable TV business less vulnerable to signal theft.

## End-November

From page B

The BSP dips into its foreign reserves to supply dollars to the spot foreign exchange market whenever there is a need to quell speculative attacks against the local currency. A large GIR build-up thus provides psychological support for the peso by improving the BSP's war chest at the foreign exchange market.

Tetangco said the current GIR level was three times the Philippines' short-term debt based on original maturity and 1.6 times based on residual maturity. Short-term debt based on residual maturity pertains to outstanding short-term external debt on original maturity plus principal payments on medium- and long-term loans of the public and private sectors falling due within the next 12 months.

Analysts said the country's GIR level remained at a healthy level and this was helping fuel the peso's strengthening against the dollar since November.

Despite a rising trade deficit partly due to the skyrocketing oil import bill, the country is seen to continue benefiting from strong foreign exchange inflows particularly from the remittances of overseas Filipino workers as well as the rebound in foreign investments.

As the global economy appeared headed for a slowdown this year, the BSP has factored in the possibility that the country could not rely on export earnings alone to generate foreign exchange inflows.

But by next year, the BSP expects the GIR level to surge to a new historic high of \$18.65 billion despite pressures from maturing debts and a widening trade gap.

The two authors agreed to try this diet as well themselves. Dr. Sirtori's group did not report any adverse effects on the health of the subjects, but Dr. Sirtori is a cardiologist, and his group is not a nutritionist group. It is possible that the diet may be harmful to some individuals, especially the elderly.
